DETAILED ACTION

1. Applicant's Amendment, and Remarks, filed January 7, 2010, is persuasive, and the finality of the previous office action, has been withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 10, is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10, recites the following,

10. (Previously Presented) A method for manufacturing a semiconductor device according to claim 2,
wherein the metal film forms an electrode of a thin film transistor.

Claim 10 depends upon claim 2; Claim 2, recites a method of removing a resist pattern, and does not recite any element that suggests that the removal of resist pattern is the manufacturing of a semiconductor device. The removal of a resist pattern on silicon substrate does not result in a semiconductor device. Therefore claim 10, lacks antecedent basis for the limitation "manufacturing a semiconductor device" in the claim. Appropriate correction is required.

Allowable Subject Matter

4. Claims 2, 6, 21, 25, 29, 33, and 37, are allowed. See Remarks, filed December 18, 2008, on page 7, paragraph nos. 2-3, and page 8, paragraph nos. 1-2.
